

Pulmonaria

'Lisa Marie'

Hoffie

Royalty Fee

This lungwort was selected for its huge flowers, 10-12" long leaves, and consistent leaf markings. Lisa Marie is a lovely plant with uniform, vigorous growth, and huge florets on long, sturdy flower stalks. The plant is loaded with flowers in late spring and then the foliage is a show stopper for the rest of the season. Prefers part sun to full shade and moist, well draining soil.

Deer and pest resistant.

Attracts hummingbirds and other pollinators.

15-18" tall by 18-24" wide.

Common Name

Lungwort

Variety

'Lisa Marie'

Zone

Zone 3

Mature Size

18" x 24"
