

Carex pensylvanica

Straw Hat

Intrinsic Introductions

Royalty Fee

This rhizomatous and vegetative form of *Carex pensylvanica* has a vigorous habit. It also has more substantial flower clusters than the species with reliable heavy spring bloom in April–May. It makes a good groundcover for dry shade.

Tolerates full sun with irrigation but part shade is best. The bright green foliage reaches only five to six inches. Lower growing and slower spreading than the species.

Common Name

Pennsylvania Sedge

Variety

Straw Hat

Zone

Zone 4

Mature Size

5-6" H x 12"W

Bloom Time

April–May

Plant Type

Grasses

Flower Color

Brown and Yellow
